

Documento[IQ]

AI TO EXTRACT INFORMATION AND ANALYZE COMPLEX
DOCUMENTS WITH GREATER ACCURACY AND FEWER
ERRORS

WHAT IS DOCUMENTOIQ?

DocumentoIQ is the platform developed by EvolutionCode, which is responsible for offering AI-powered products, ideal for assisting professionals and companies in the analysis, understanding and review of complex documents.

AI identifies relevant information, reduces human error, and speeds up processes without replacing professional validation.

SOLUTIONS

DocumentoIQ has a line of specialized products by industry.

Documento [IQ] Notaries

It assists in the analysis, extraction and validation of key information from complex notarial deeds and documents, reducing times and errors without replacing the notary's criteria.

Documento [IQ] Banking

It assists banking institutions in the review, validation and ruling of critical documents, reducing operational times and errors, but without replacing the criteria of the legal analyst.

CHALLENGES IN LEGAL AREAS AND NOTARIES

CHALLENGES 📄	CONSEQUENCES ⚠️
+70% of law firms report that manual processing slows down their operations.	Delays and bottlenecks in the attention and review of procedures.
Teams spend about 30% of their time searching for information in documents.	Excessive time spent searching and analyzing documents and wasted talent on repetitive, low-value tasks.
Handling a lot of poor quality paper/PDF throughout the process.	Increased risk of errors and corrections, affecting legal validity.
Slow digitalization: lack of electronic protocols and technological training.	Slow and costly processes, with low traceability and operational efficiency.

MEASURABLE RESULTS

Documento **IQ**

Speeding up processes. Eliminating errors. Enhancing legal efficiency

Reduction of operational times

Up to 70% less time spent reviewing and creating legal documents.

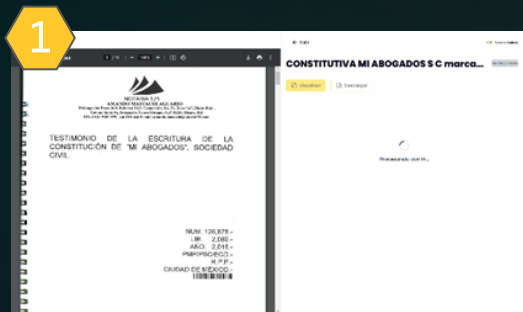

Reduction of human error

Up to 80% fewer errors in data, names, clauses and calculations.

HOW DOES DOCUMENTOIQ WORK?

Documento **IQ**

Uploading legal documents

Upload legal documents in PDF or image formats, even if they are long and complex.

OCR and AI processing

We combine advanced OCR with trained language models to understand legal documents, automatically identifying key data.

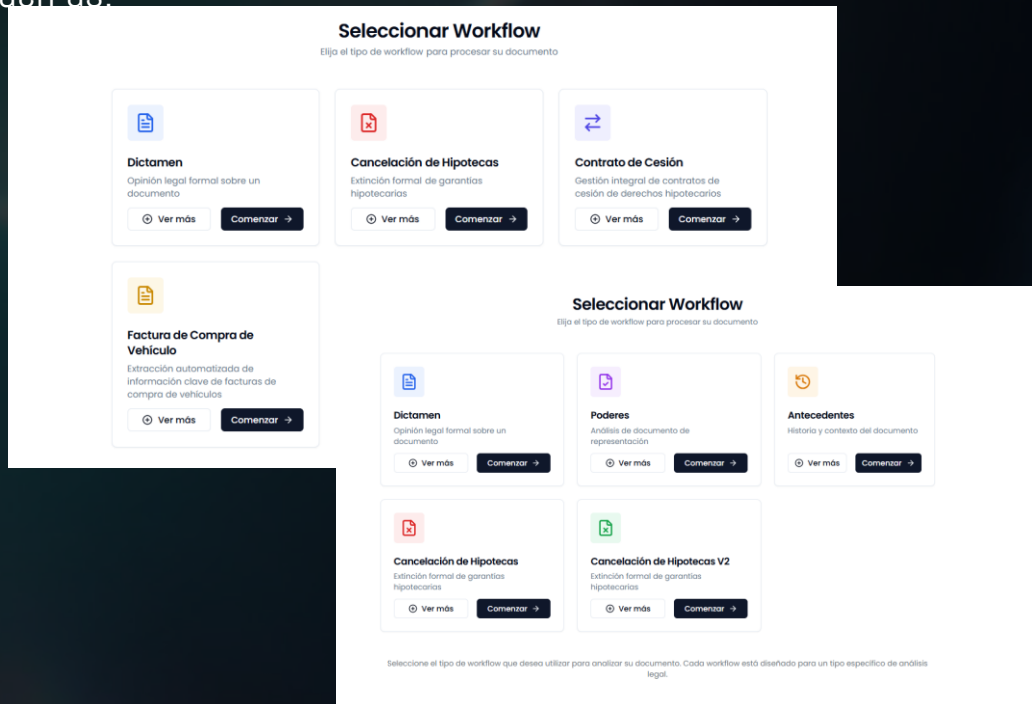

Structured and verifiable data

Access the extracted text to review the information from the visual dashboard or export the data in Excel, CSV or JSON to integrate it into your legal systems of use.

WORKFLOWS

DocumentolQ operates through workflows designed to adapt to different types of documents and legal needs, such as:

1. Generation of Opinions
2. Review of Powers of Attorney
3. First Background Creation
4. Mortgage Cancellation
5. Assignment of Rights
6. Analysis of Contractual Obligations
7. Billing Data
8. Others

TESTIMONIALS

"It is impossible to go back to the traditional method and abandon the advantages of efficiency and accuracy that we now have with DocumentoIQ, which speeds up information extraction, reduces errors and significantly optimizes legal review time."

— María, Consulting Attorney, MIT Consultores

DOCUMENTOIQ

DOCUMENTOIQ ADVANTAGES

Documento **IQ**

Speed and Fewer Errors Processing Documents

TIME SAVING

It reduces review time by up to 70%, allowing focus on key decisions.

FEWER ERRORS

It reduces errors by 80%, improving data accuracy.

VERSATILITY

DocumentoIQ accommodates a variety of documents, such as minutes, contracts, and more.

SCALABLE – UPDATABLE

The algorithm is optimized every month, increasing the accuracy and amount of data extracted.
