

Documento [IQ]

INTRODUCTION TO DOCUMENTOIQ BANKING

DocumentoIQ is the brand developed by EvolutionCode, which is responsible for offering AI-powered products, ideal for assisting professionals and companies in the analysis, understanding and review of complex documents.

AI identifies relevant information, reduces human error, and speeds up processes without replacing professional validation.

CHALLENGES IN LEGAL AREAS OF BANKS

CHALLENGES 📄	CONSEQUENCES ⚠️
High volume of manual work	Delay in the delivery of opinions and consequently the opening of accounts and credits
Few lawyers doing different processes	Increased risk of errors and corrections, affecting legal validity.
High number of cases per attorney	Repetitive revisions
Handling a lot of poor quality paper/PDF throughout the process	Slow and costly processes, with low traceability and operational efficiency
Bottlenecks in few experienced lawyers	High turnover of junior lawyers

WHAT IS DOCUMENTOIQ BANKING?

DocumentoIQ Banking is an AI-powered platform that extracts data and facilitates the processing and creation of legal documents without replacing the lawyer's judgment.

Transform hours of legal review into minutes.

ONBOARDING PROCESS LEGAL AREAS

Traditional (Manual)

 1: The client delivers physical documents (ID, receipts, etc.).

 2: The executive validates authenticity and completeness manually **(2 out of 5 with errors)**.

 3: The legal area manually reviews the files and extracts variables from the report **(1 hour per credit)**.

 4: If there are errors, the file is returned for correction and the process is restarted.

 5: With acceptance, the contract is drawn up and the data is captured manually.

 6: The executive reviews and signs the documentation.

 7: The account or credit is approved.

With DocumentoIQ Banking (Automated)

 1: The client delivers physical or digital documents.

 2: The executive **uploads the documents to the platform**; the system detects inconsistencies and the legal area only reviews cases without errors. **(0 out of 5 with errors)**

 3: DocumentoIQ Banking analyzes the files and generates a structured summary with the key data in **5 minutes per credit**.

 4: The system generates an **automated report** and flags only incidents that require review. **(5 minutes per credit)**.

 5: With acceptance, **DocumentoIQ Banking** pre-fills the data in the contract for final validation.

 6: Executive reviews and signs with automatically verified data.

 7: The opening is formalized with **agile and traceable** processing.

ONBOARDING PROCESS LEGAL AREAS

 BEFORE (Manual)	 AFTER with DocumentIQ Banking (Automated)
Document-by-document validation and review.	Automatic analysis and extraction of key data.
1 average hour per credit.	5 minutes average per credit.
2 out of 5 files with errors.	0 errors in initial validation.

-  -40% in opinion times.
-  -60% in errors due to manual capture or review.
-  +Greater control and traceability at every stage of the process.

HOW DOES DOCUMENTOIQ BANKING WORK?

Documento **IQ**
Banking

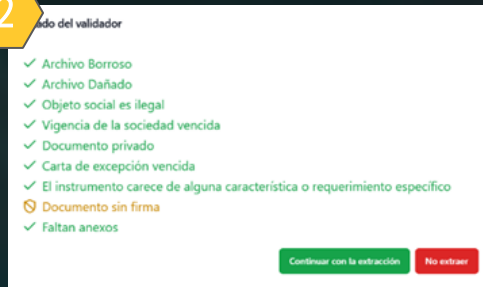

1

Entry of bank files

Upload complete files for account opening, credit applications, or mortgage cancellation, either through direct upload or API integration.

2

OCR and AI processing

We combine advanced OCR with trained language models to understand legal documents, automatically identifying key data.

3

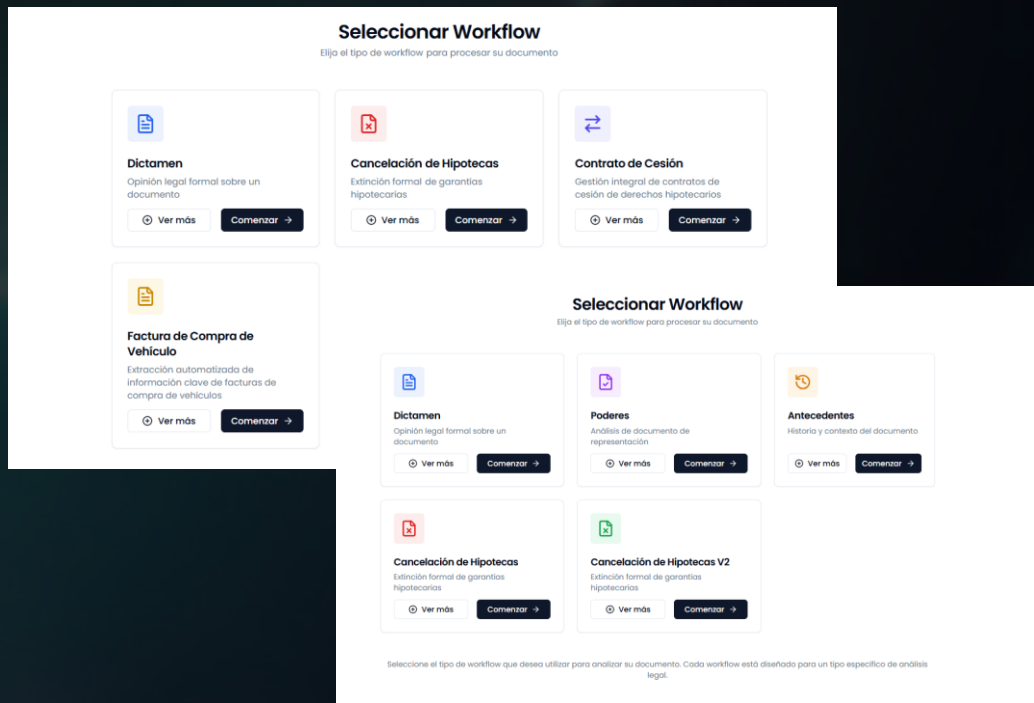

Automated Opinion and Final Review

The system generates an automated report and allows the legal analyst to review only the incidents indicated, reducing the evaluation time.

WORKFLOWS

1. Generation of Opinions
2. Review of Powers of Attorney
3. First Background Creation
4. Mortgage Cancellation
5. Assignment of Rights
6. Analysis of Contractual Obligations
7. Billing Data
8. Others

DOCUMENTOIQ BANKING ADVANTAGES

Speed and Fewer Errors Processing Documents

TIME SAVING

- It considerably reduces the training times of a Junior lawyer.
- It reduces review time by up to 75%, allowing focus on key decisions.

FEWER ERRORS

- Reduces errors by 30%, improving data accuracy.

VERSATILITY

- DocumentoIQ Banking adapts to various documents, such as minutes and contracts.

SCALABLE – UPDATABLE

- The algorithm is optimized every month, increasing the accuracy and amount of data extracted.

TESTIMONIALES

"It is impossible to go back to the traditional method and abandon the advantages of efficiency and accuracy that we now have with DocumentoIQ Banca, which accelerates information extraction, reduces errors and significantly optimizes legal review time."

— María, Consulting Attorney, MIT Consultores
